

LLM-ERP Taiwan Compliance Reference (English)

For accountants / legal / IT leads to confirm What Taiwan regulations we support, what we don't, what the customer must configure themselves.

Contents

- [1. Tax Compliance](#)
 - [2. E-Invoice](#)
 - [3. Personal Data Protection](#)
 - [4. Labor Law / NHI](#)
 - [5. Industry-Specific Regulations](#)
 - [6. Compliance Level Matrix](#)
 - [7. Self-Configuration Checklist](#)
-

1. Tax Compliance

1.1 Business Tax (VAT 5%)

Item	Status	Feature
Form 401 (general VAT return)	✔ Full	<code>GET /api/tax/tw/401?year=2026&period_no=1</code>
Form 403 (input/output detail)	✔ Full	<code>GET /api/tax/tw/403?direction=sales</code>
Form 405 (zero-rated sales)	● Partial (needs customer = "export")	Phase 1.5
Bi-monthly filing period	✔ Built-in	period_no 1-6
Invoice number track mgmt	✔ Built-in	Random + track pattern
Tax ID checksum validation	✔ Built-in	<code>validate_tax_id()</code>

1.2 Filing Periods

Period	Months	Filing Deadline
P1	Jan-Feb	Mar 15
P2	Mar-Apr	May 15
P3	May-Jun	Jul 15
P4	Jul-Aug	Sep 15
P5	Sep-Oct	Nov 15
P6	Nov-Dec	Jan 15 (next year)

LLM-ERP auto-pushes LINE reminder 5 days before each deadline (planned).

1.3 Corporate Income Tax (25%/20%)

Item	Status
Monthly P&L estimation	✓ GET <code>/api/analytics/gross-margin</code>
Annual estimated tax	● Manual export
Final tax return (401-1)	✗ Requires CPA assistance

2. E-Invoice

2.1 Regulation Mapping

Regulation	Our Support
Article 7 of Unified Invoice Act	✓ EInvoice structure compliant
MOF MIG 3.2.1	✓ <code>to_mig_dict()</code> aligned
B2B / B2C e-invoice	✓ Both (buyer_tax_id optional)
Mobile barcode carrier (3J0002)	✓ carrier_type / carrier_id fields
Natural-person cert (EJ0113)	✓ Same
Donation code	✓ npo_id field
Credit note	● cancel API exists; CN format pending
Void / cancel	✓ <code>cancel(invoice_no, reason)</code>

2.2 VAC Provider Integration

We provide an **Adapter interface** + Mock provider. To connect production VAC:

```
# In backend/app/integrations/einvoice_tw.py, replace default_provider
class GuanTradeProvider(EInvoiceProvider):
    """GuanTrade Network – major VAC."""
    def submit(self, inv): ...
    def cancel(self, invoice_no, reason): ...
```

Planned VAC integrations:

- GuanTrade Network (GVB)
- Chunghwa Telecom HiCloud
- Cathay Green / ECPay
- Sinopac e-Pay

2.3 Built-in Self-Validation

-  Tax ID 8-digit checksum + all-same-digit rejection
-  Invoice number format (AB12345678 / AB-12345678)
-  Tax calculation (5%) + rounding
-  Total = sales + tax (±1 NTD tolerance)

3. Personal Data Protection

Personal Data Act	Status
Art. 6 (sensitive data)	 Don't collect (recommended); customer avoids storing
Art. 8 (notification)	 Customer provides own privacy policy
Art. 11 (update/delete)	 Customer/employee models have soft delete
Art. 12 (security)	 bcrypt / RBAC / Audit
Art. 27 (breach notification)	 Traceable via AuditMiddleware
Personal data inventory	 List of fields (below)

3.1 Personal Data Collected

Subject	Fields
Employee	Name / Email / Phone / Dept / Title / Hire date
Customer contact	Name / Email / Phone
Supplier contact	Name / Email / Phone
User	Username / hashed password / Last login

Not collected: National ID / NHI card / Bank account / Credit card (outside scope)

3.2 GDPR Alignment (for International Brand Exports)

Right	Our Support
Right to access	<code>GET /api/auth/me</code>
Right to erasure	Reserved API (customer enables)
Right to portability	Built-in CSV / xlsx export
Data localization	MESH multi-factory — data stays at each site

4. Labor Law / NHI

Item	Status
Employee data	✔ Employee model
Attendance	● 3rd-party integration (Phase 2+)
Payroll calculation	✗ Not in scope (use 8thlife / 102 etc.)
2nd-gen NHI supplementary premium	✗ Not in scope
6% labor retirement	✗ Not in scope

Design choice: **HR doesn't dive into payroll**. Position is "ERP + AI", not HRIS. APIs provided for 3rd-party payroll integration.

5. Industry-Specific Regulations

5.1 Food Processing

Regulation	Status
Food Safety Act Art. 9 (traceability)	● lot/batch fields exist; recording manual
Imported food inspection	✗ Separate system needed
HACCP record	✗ Phase 2+

5.2 Medical Device

Regulation	Status
UDI (Unique Device Identification)	● lot_no field usable
GMP document control	✗ Separate QMS needed

5.3 Chemicals / Hazardous

Regulation	Status
Toxic chemical registry	✗ Separate chem management
SDS linkage	● Part.remark for link storage

6. Compliance Level Matrix

Compliance Level	LLM-ERP Coverage	Customer Must Add
Solo (<5 people)	100% ✓	None
SMB Manufacturer (50-100 people, ICP)	90% ✓	External payroll
Cross-border group (500+ people)	60% ●	+ Consolidation / multi-currency / multi-company
Listed company	40% ●	+ Material info / IFRS / internal control reports
Finance / Healthcare	Not suitable ✗	Use industry-specific systems

7. Self-Configuration Checklist

Items the customer must configure during rollout:

Company Basic Info

- ☐ Company tax ID

- ☐ Company name (ZH + EN)
- ☐ Company address (ZH + EN)
- ☐ Legal representative / invoice track
- ☐ Business activity codes
- ☐ Tax authority branch

Tax Settings

- ☐ Applicable rate (5% / zero-rated / exempt)
- ☐ Bi-monthly vs monthly filing (default bi-monthly)
- ☐ E-invoice usage decision
- ☐ VAC provider selection

Banking / Payment

- ☐ Company bank account (for AR/AP records)
- ☐ Payment gateway (ECPay / JKOPay / LinePay, if any)

Legal / Privacy

- ☐ Privacy notice (for employees / customers to sign)
- ☐ Customer / supplier / employee consent forms

 Compliance Consultation

Category	Recommended Contact
Tax (401/403/annual)	Retained CPA firm
E-invoice setup	VAC provider / tax authority
Personal data compliance	Retained lawyer / DPO course
LLM-ERP config issues	support@llm-erp.example
