

Printing / Export Module — Legal & Compliance Notice (v3.36)

Document nature: Compliance reminder for PDF printing and CSV/Excel export. **Does not constitute legal advice.** Cumulatively applies to all §6 disclaimers in v3.25.10 → v3.36.

Chinese version: `PRINT_EXPORT_LEGAL_NOTICE_ZH.md`

Important: Printed documents and exported files carry legal and compliance weight

Ouvoca v3.36 print / export features cover:

- PDF Quotation / Purchase Order / Sales Order / Delivery Note (outbound documents)
- Customer / Supplier / Part lists (containing PII / trade secrets)
- Sales / Purchase orders / Inventory snapshots in Excel (financial reference)

Errors or leaks of these files may trigger:

-  Contract disputes (counterparty relies on the PDF for price/spec/delivery)
-  PII leakage (Taiwan PDPA / GDPR / equivalent)
-  Trade secret leakage (Taiwan Trade Secrets Act)
-  Financial misstatement (internal / external audit)

Use only under authorized review processes; sign before sending externally.

1. PDF Legal Boundaries

1.1 Quotation ([print_quotation_pdf](#))

Risk	Customer Responsibility
Invitation to treat	PDF already includes "This quotation is an invitation to treat; the final contract is the signed paper version"
Signature validity	Ouvoca PDF carries no e-signature ; use a separate signing service (TWCA / SecureSign / DocuSign)
Amount accuracy	Customer must manually verify amount, tax, validity period before sending
Attachments	Spec sheets, warranty, payment terms are not auto-attached by Ouvoca

1.2 Purchase Order / Sales Order / Delivery Note

Risk	Customer Responsibility
External legal effect	A PDF emailed/printed to a supplier or customer may constitute an "offer" or "acceptance"
No version history	Ouvoca PDF carries no revision history ; reprint and recall old copies after corrections
Delivery receipt	Delivery notes are evidence of title transfer ; the recipient must have authority to sign
Tax voucher	Delivery / sales notes are not equivalent to a uniform invoice; issue invoices via the e-invoice flow (see v3.34 §1)

1.3 Common Disclaimer

To the maximum extent permitted by applicable law, Ouvoca is **not liable** for disputes arising from:

- PDF content errors (amount / spec / delivery date)
- PDF leakage, tampering, or impersonation
- Customer being bound to a contract via the PDF
- Unauthorized external transmission by customer staff

2. CSV / Excel Export & Data Protection

2.1 PII Protection (PDPA / GDPR-equivalent)

Exported customer / supplier lists may contain:

- Name, phone, email (PII)
- Company address, commercial terms (trade secret)

After export, customers should:

-  **Encrypt at rest** (not loose on desktop / shared folders)
-  **Restrict access** to authorized personnel
-  Use **encrypted email** or **encrypted attachments** for external send
-  **Do not** resell, transfer, or lend to third parties
-  **Do not** use for non-business purposes (e.g. marketing SMS for another company)

2.2 Trade Secret Protection

Exported **part lists, inventory snapshots, sales/purchase orders** include:

- Unit prices, costs, margins (trade secret under Taiwan Trade Secrets Act §2)
- Customer/supplier transaction amounts & payment terms

Improper disclosure may result in:

- **Civil:** Damages (Trade Secrets Act §12-14)
- **Criminal:** Up to 5 years imprisonment (Trade Secrets Act §13-1)

2.3 Sending to Third Parties (CPA / Tax Agent)

Scenario	Recommended Practice
Mail to CPA firm	Encrypted zip + password via separate channel; no plaintext email
Mail to tax agent	Confirm recipient uses dedicated firm email
Mail to bank (credit / financing)	Bank's secure upload portal ; not as email attachment
Internal cross-department	Use Ouvoca's permission control to query directly; avoid repeated downloads

3. Demo Data Seeding (`seed_demo_data_with_confirm`)

3.1 Not for Production

Scenario	Usable?
Day-1 trial after install	✓ Yes (DB empty)
Customer demo environment	✓ Yes (isolated DB)
Production DB	✗ No (avoid mixing with real data)
Training environment	✓ Yes (separate DB)

Ouvoca's `seed_demo_data_with_confirm` has built-in protection: **auto-skips when DB has data**.

3.2 Post-Load Responsibility

- Demo data is for functional verification only — does **not** reflect real business relationships
- Demo customer / supplier / part **tax IDs, addresses, amounts** are fictional
- Customers must **not** use demo data in external documents, reconciliation, or filings

4. Templates & Third-Party Licenses

4.1 PDF Templates

- Ouvoca's built-in PDF template is generated by Ouvoca's own reportlab code
- It does **not** include specific customer templates (e.g. DataSystems / SunLike PDF styles)
- For matching existing ERP templates, customers must **customize** `print_service.py` or commission custom work from our team

4.2 Font Licensing

Ouvoca's PDF fallback chain:

1. Windows: Microsoft JhengHei (OS-license)
2. macOS: PingFang (Apple-license)
3. Linux: Noto Sans CJK (Open Font License, free commercial use)
4. Fallback: Helvetica (reportlab built-in PostScript)

Customers using these fonts in commercial environments must comply with the respective vendor's license. Ouvoca does **not** embed or redistribute these font files.

5. Record-Keeping & Audit

5.1 Print / Export Audit Log

- Ouvoca's ConfirmCard and LLM tool calls have **audit logs**
- Printing PDFs (READ tier) is **not** mandatorily audited; for tracking "who printed what", customers should add logging at the API gateway layer
- CSV/Excel exports do **not** automatically log "downloader"; for tracking, add logging at the enterprise SSO layer

5.2 Statutory Retention Periods (Taiwan)

Document Type	Retention	Source
Quotations / Purchase orders / Sales orders	At least 5 years	Business Accounting Act §38
Uniform invoices (PDF copies)	At least 5 years	Value-Added & Non-VAT Business Tax Act §32
Inventory snapshots	At least 5 years	Business Accounting Act §38
Customer / supplier master files	Per business contract	Individual contract terms

Ouvoca does **not** auto-archive PDFs; customers must store them (recommendation: monthly export + cloud backup + encryption).

6. Disclaimer (Cumulative v3.25.10 → v3.36)

To the maximum extent permitted by applicable law:

1. **Printing** Ouvoca is **not liable** for the **legal effect, accounting accuracy, or tax compliance** of PDF content. Customer must verify and have authorized personnel sign before external transmission.
2. **Export** Ouvoca is **not liable** for the **storage, transmission, or third-party processing** of exported files. Customer must manage controls per PDPA, Trade Secrets Act, and contractual obligations.
3. **Templates** The PDF style is for **functional demonstration**. For official external documents, customer must confirm layout, terms, and seals conform to industry norms and legal requirements.
4. **Demo Data** `seed_demo_data_with_confirm` content is **entirely fictional**; must not be used in external contracts, filings, or reconciliation.

7. Pre-Adoption Checklist

Before adopting Ouvoca v3.36 print / export features, please confirm:

- ☐ Designated **outbound document sign-off workflow** (who can send, who must review)
- ☐ Established **PII and trade secret internal control policy**
- ☐ Configured **file encryption / secure transmission channels** (GPG, encrypted ZIP, enterprise VPN)
- ☐ Provided **employee training** on PDPA and Trade Secrets Act basics
- ☐ Consulted **CPA / legal counsel** on paper archive workflow
- ☐ Set up **at least 5-year print log backup** (per Business Accounting Act)
